

Histotripsy pulse-pattern time-domain waveforms

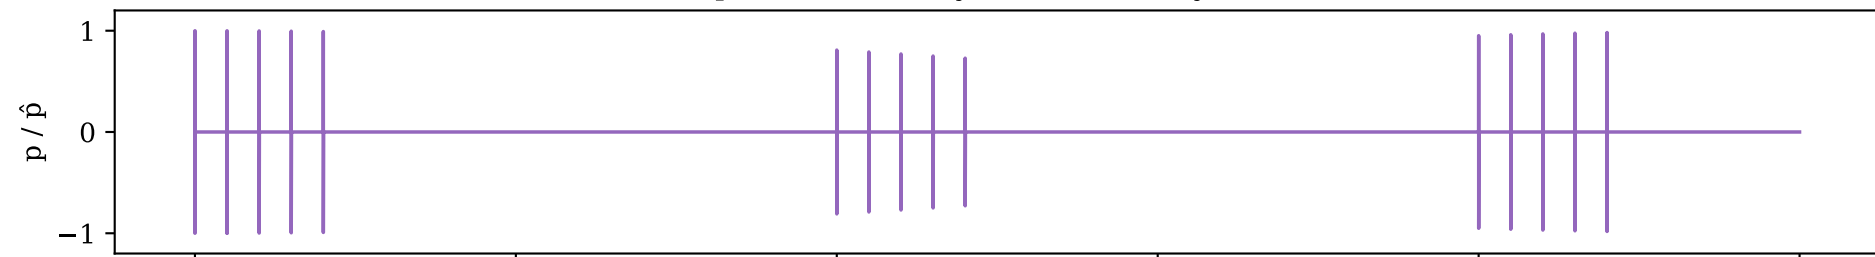

μ s intrinsic-threshold: 2-cycle tone burst @ 200 Hz PRF

ms shock-vapor: 10 ms shock-formed pulse @ 1 Hz PRF

Dual-PRF burst-and-pause (Macoskey 2018): 5×2 -cycle @ 1 kHz, 50 Hz outer

Dithered-PRF (Mancia 2020): mean 200 Hz, $\pm 30\%$ jitter
